Where	Local 58 2864 Janitell, Colorado Springs
Cost	\$100 refundable registration Meals and materials will be provided
Questions	Contact Beto at beto@local58.org

PROGRAM DESCRIPTION

This course is designed to develop current and potential foremen within the UA/MCAA into more effective leaders. It covers topics critical to the workplace such as: leadership functions, commitment, people skills, communications, teamwork and organization. Those who take this course will be strongly urged to implement this Foreman Certification Program at the local union level. The UA/MCAA Foreman Certification test will be administered at the end of the last session. Instructors will use Blackboard™ for testing.

Foremen must attend all 4 sessions to be able to test for the Foreman Certification credential and for the contractor to be refunded for registration fee. Contractors will be responsible for paying full wages for the two Friday sessions (If on a 4/10 schedule, contractor responsible for 8 straight hours.) Members will attend the two Saturday sessions on their own time.

Meet the Instructors

John Shue

John Shue is a member of Pipefitters LU 597 Chicago, IL. He began his career in the UA as apprentice in 1966. By 1971, he was a “A” card UA Journeyman. In 1990, John began teaching apprentices and by 2000 was a full time teacher. He attended the UA Instructor Training Ann Arbor Michigan, and Graduated in August, 2000. Around 2002, John began teaching various UA Instructor & Train the Trainer classes. He was an initial participant in the preparation and training of the UA Foreman Certification classes in Ann Arbor since its inception 2007.

Tom Williams

Tom Williams served for thirty-one years as president of McKenney’s, Inc. a multi-disciplined construction and engineering firm. A long-time advocate for construction education, Tom’s passion for teaching industry professionals how to improve both their hard and soft skills is well known. Tom was a part of the UA/MCAA team that developed the Certified Foreman Training Manual. He also teaches and consults contractors with an emphasis on improving both jobsite and office productivity, while adding value to the construction process. He is on the faculty of MCAA’s National Education Initiative, Institute for Project Management (IPM) and the Advanced Institute for Project Management (AIPM).
